Front-End & Full Stack Developer

AllianceBernstein, New York, NY / *Front End Developer*

November, 2018 – Present

Front-End Developer on an Agile development team, building, maintaining, and debugging accessible marketing and informational sites, for various global regions, implementing HTML5, CSS3, SASS, React, JavaScript & XML/XSLT. Migration of the firm's numerous websites to its new in-house CMS, which runs on Adobe Experience Manager. Daily collaboration with Project Managers, Designers and Quality Assurance, refining business requirements to deliver outstanding experiences on both mobile and desktop platforms, by iterating, optimizing, and debugging both pre-production and production code. Perform version control with Git and Azure DevOps. Provide mentoring and training to junior developers. Contribute documentation to the development team's knowledge center in Confluence.

Mutant Media, New York, NY / *LAMP Stack Web Developer*

December, 2011 – October, 2018

Coded, managed, migrated, maintained, and launched numerous feature-rich websites, in multiple sectors, including Mutant Media's own website. Managed LAMP infrastructure as needed. Website builds utilized HTML5, CSS3, SCSS, JavaScript, custom PHP solutions, and PHP frameworks including WordPress, CodeIgniter, and Magento. Built and optimized MySQL databases for various sites. Clients included, but were not limited to: *Seiko USA, Grand Seiko USA, Pulsar Watches USA, Aramark Schools, Irwin Leighton, BASF*

Chista.net, Jersey City, NJ / *LAMP Stack Web Developer*

2006 – August, 2018

Provided ongoing website maintenance, expansion, revision and optimization. Created the front-end and back-end custom CMS utilizing Fat-Free PHP Framework, HTML5, CSS3, and JavaScript, for managing a voluminous inventory of products. Implemented a site-wide redesign, with an emphasis on improved navigation and overall aesthetic quality, while streamlining data access and retrieval for the sales and customer service departments. Routinely prepared graphics and retouched digital photography for online publication.
